Group Norm Table Report

School:

Number of Examinees:

Test Date(s):

This report provides normative information for the performance of your examinees approaching the end of undergraduate medical education on the IFOM Basic Science Examination (IFOM BSE), the ICG (International Comparison Group) and custom comparison groups (if available). Caution should be used in interpreting an examinee’s performance relative to this group due to differences in examinee preparation and motivation. More information about the ICG, custom comparison groups (if available), and how to interpret this document can be found in the Interpretation Guidelines for Medical Schools and Organizations.

If you wish to compare an examinee’s performance with the performance of the ICG, locate the examinee’s score in the column labeled Total Test Equated Percent Correct Score. Read across that row to the column labeled International Comparison Group. The number in this column is the examinee’s percentile rank in the ICG, and it indicates the percentage of ICG participants scoring lower than that examinee.

Total Test Equated Percent Correct Score	Your Examinees (N=45)	International Comparison Group (N=3518)
90 and above	98	98
89	98	98
88	98	97

Performance Summary Profile Report

School:  
 Number of Examinees:  
 Test Date(s):

This profile provides a graphical summary of the performance of your examinees approaching the end of undergraduate medical education on the content areas of the IFOM Basic Science Examination (IFOM BSE) using a Box-and-Whiskers plot. The content area scores have been standardized to have a mean of 500 and a standard deviation of 100 for a group of examinees who took IFOM BSE in 2016 and 2017. More information about how to interpret this document can be found in the Interpretation Guidelines for Medical Schools and Organizations.
